Stir stick is in the trash can	Pick up coffee cup lid
Coffee cup lid in hand	Put lid on coffee cup
Lid is on coffee cup	*Pick up coffee cup
*Coffee cup is in hand	*Give coffee cup to customer

Modifications: For a student who has difficulty with fine motor skills:

-Instead of the student opening a coffee cup sleeve each time when fixing a cup of coffee, a co-worker could be the cup sleeves on the cups before the student's shift begins.

-Instead of opening a milk container's spout for each cup of coffee, milk could be stored and poured from a pitcher kept on the counter.

-Instead of opening individual sugar packets for each coffee, sugar could be in a sugar dish with a spoon and kept on the counter.

-Instead of using a thin stir stick, coffee could be stirred with a larger stirring utensil such as a table spoon.
